

# Anglerfish Chomper Puppet

Here, fishy fishy! The anglerfish has a built-in fishing pole on top of its head. Smaller fish see the glowing light at the end of it and swim closer—right into the anglerfish's mouth!

Create your own chomping anglerfish!

**Tip:** Print on cardstock for a longer-lasting puppet.

## Materials

- Crayons or colored markers
- Child-safe scissors
- Tape

## Legend

- Cut line  - - - - -
- Fold line .....

## Directions

1. Color and cut out the anglerfish on the next printed page.
2. Fold the anglerfish in half along the center dotted line.
3. Fold back the anglerfish's chin along the bottom dotted line.
4. Turn over the anglerfish and fold back along the top dotted line.
5. Cut out the two hand straps and fold along the dotted lines.
6. Tape a hand strap to the back of the puppet, in between the center and top fold lines.
7. Turn over and repeat for the other hand strap.
8. Slide your fingers under the straps, open wide, and say, "Aaaahhh!"
