

# Rise and Shine!

European hedgehogs spend their winters hibernating, which means they spend most of the colder months in a deep rest, as if they are asleep. When they wake up again in spring, the hedgehogs are eager for a snack. Create your own lift-the-flap scene to discover what's on the menu for some of these hungry hedgehogs.

Color in both pages, then cut out the flaps on this page. Tape the flaps onto the second page for some peekaboo fun!

## Materials

- Crayons or colored markers
- Child-safe scissors
- Tape

## Legend

- Cut line 
- Fold line .....
- Place flap — — — — —
