

Holiday Houses

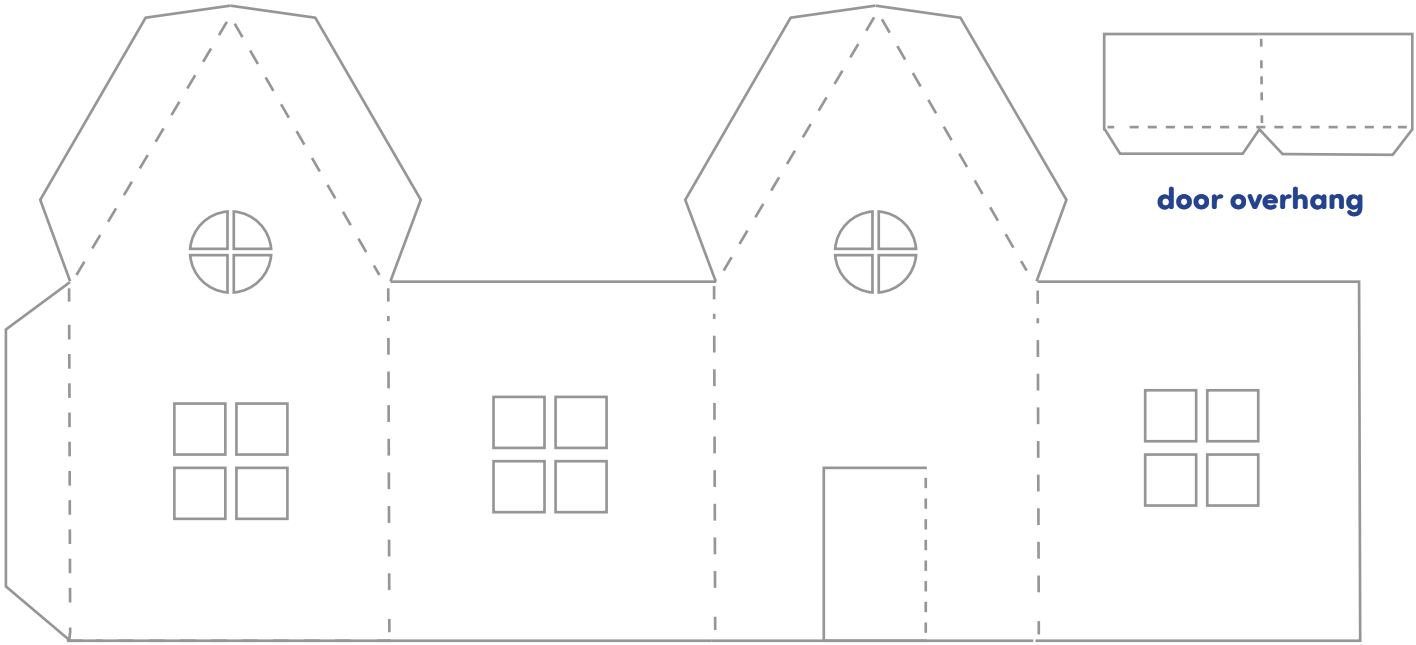

Tip: Print on cardstock for sturdy houses.

1. Color all the pieces of the house.
2. Cut out all the pieces, leaving the windows in the house, but cutting along the solid line of the door so it opens.
3. Fold all pieces along dashed lines.
4. Glue along the side tabs of the house wall and attach it to the other side. Hold it in place until the glue sets.
5. Glue the tabs at the peak of the house. Place the roof on the tabs.
6. Glue the tabs of the door overhang above the number.
