

Poinsettia Ornaments

Not included: string

Tip: Print on cardstock for lasting ornaments.

Did you know? The red parts of a poinsettia are its leaves. The flowers are in the very center!

1. Color all the pieces to match their outlines, and cut them out.
2. Glue the leaves together at the center of the shapes starting with the green leaves on the bottom, then the large red leaves, and lastly, the small red leaves. When placing, rotate so top leaves are between the leaves of the piece underneath.
3. Glue the flowers in the middle (or use tiny pom poms!).
4. To hang, make a loop out of string and glue onto the back.
