

Snowman

Tip: Print on cardstock for a sturdy snowman.

1. Color the circles (eyes, mouth, and buttons).
2. Cut out the shapes for the hat, arms, and the solid outlines of the head and bottom of the snowman.
3. Fold the head and bottom of the snowman along the dotted lines.
4. Add glue where indicated and slide the glued tab under the panel beside it. Hold each piece in place a few seconds until the glue sets, then move on to the next panel, forming a ball shape.
5. After each “ball” is formed, place the bottom of the snowman so the buttons are angled up. Glue the head onto the bottom of the snowman.
6. Curl the hat tube until the short ends touch. Glue the ends together.
7. Glue the bottom and top onto each end of the tube shape.
8. Fold along the dotted line at the end of each arm.
9. Glue the small tab of each arm onto the snowman.
